

Weitec Fahrwerktechnik – является производителем подвесок со спортивными характеристиками, предназначенных для использования в городских условиях.

Фирма Weitec производит комплекты, как с регулировкой высоты и жесткости, так и без регулировок с заранее настроенными на заводе

характеристиками оптимальными для быстрой езды.

Weitec производит очень широкую гамму пружин с прогрессивными характеристиками и занижением автомобиля от 15 до 80 мм. Также Weitec производит проставки на пружины для увеличения клиренса машины (для тех людей которым кажется, что их машина имеет слишком низкую посадку).

Винтовая подвеска Hicon GT и Hicon TX

РЕГУЛИРУЕМАЯ ПОДВЕСКА

Hicon GT - комплект амортизаторов с винтовой регулировкой высоты.

Hicon TX "plus" - комплект амортизаторов с регулировкой высоты и регулировкой жесткости.

Винтовая подвеска, входящая в комплекты серии Hicon, позволяет водителю, любителю спортивного типа вождения, изменять высоту подвески по его индивидуальным потребностям. Благодаря изменяемым положениям алюминиевых посадочных площадок для пружин на штоке амортизатора, положение пружины может быть изменено оптимальным образом. Совместное использование укороченных оцинкованных корпусов амортизаторов со спортивными пружинами, позволяют уменьшить клиренс до 80 мм и больше (без TUV-сертификата). Использование высококачественных материалов и особенно специальных ограничителей удара (Эластомеров), а также пылезащитных колпаков (пыльников), гарантируют получение удовольствия от вождения. Используя в винтовой подвеске серии Hicon GT нерегулируемые по жесткости амортизаторы, компания WEITEC устанавливает новые ценовые стандарты, при отсутствии необходимости снижать качество. Серия амортизаторов Hicon TX (с регулировкой жесткости после установки) отличается среди прочих, благодаря высоким техническим показателям и высококачественным компонентам.

Серия Hicon GT - новая, экономичная система амортизаторов, без регулировки их характеристик. Современные и высококачественные компоненты гарантируют в этой системе, состоящей из двух труб, содержащих газ под давлением, не только долговечность, но также и чрезвычайную эффективность амортизаторов при одновременном соблюдении требований противодействия нагреванию. Вы можете не волноваться о регулировке амортизаторов, потому что при их разработке был использован весь опыт компании WEITEC в многочисленных тестах, чтобы предоставить Вам лучшие настройки, чтобы гарантировать комфорт вождения и безопасность. При необходимости регулировки жесткости амортизаторов используйте серию Hicon TX.

Винтовая подвеска Hicon GTN

РЕГУЛИРУЕМАЯ ПОДВЕСКА GTN

GTN - комплект амортизаторов с винтовой регулировкой высоты передних и регулировкой высоты задних амортизаторов кольцом.

Винтовые комплекты серии Weitec Hicon GTN с регулировкой высоты заднего амортизатора кольцом. Винтовая подвеска серии Hicon GTN является экономичной альтернативой винтовой подвески серии Hicon GT. Регулируемые винтовые амортизаторы передней подвески лучше всего использовать совместно с регулируемой задней подвеской серии Ultra при использовании соответствующих понижающих пружин. Съемное кольцо на задних амортизаторах позволяет регулировать высоту задней оси автомобиля с шагом 10 мм, в противоположность передней оси, высота

положения пружины на которой, имеет плавную регулировку. Это решение является самым экономичным из возможных вариантов регулируемых комплектов подвески.

Комплекты спортивной подвески Ultra GT

ПРУЖИНЫ И КОМПЛЕКТЫ ПОДВЕСКИ

Спортивные заниженные пружины с прогрессивной характеристикой. Ultra GT - комплект спортивной подвески, состоит из 4-х пружин и 4-х амортизаторов.

Комплекты спортивной подвески серии Weitec Ultra GT - это экономичные, высококачественные, полностью самодостаточные системы. Комбинируя спортивные пружины Weitec для достижения точной величины занижения и амортизаторы серии GT, компания перекрывает весь диапазон возможного применения. Современные и высококачественные компоненты, используемые в амортизаторах GT гарантируют долговечность и позволяют добиться точности настроек. Благодаря системе, состоящей из двух труб, содержащих газ под давлением, Вы можете не волноваться о регулировке характеристик. Имеющийся у компании огромный опыт постоянного

развития и совершенствования, а также вследствие многочисленных тестов и испытаний, она в состоянии произвести лучшую спортивную подвеску, которая гарантирует безопасность и комфорт при вождении. Весьма часто возможна точная настройка высоты кузова за счет регулировок опор для пружин на задних амортизаторах. Укороченные GT-системы не только обеспечивают удовлетворительное растяжение пружины, но также и хороший ее ход, что ведет к ощущению комфорта при вождении.

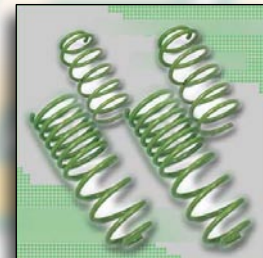

Спортивные пружины

Спортивные пружины WEITEC сделаны из высококачественной хромовой стали Silicium. Они средней жесткости, имеют поверхность, защищенную покрытием из фосфата цинка с последующим покрытием эпоксидной смолой.

Все спортивные пружины от WEITEC, снабжены полными инструкциями, сертификатами качества и свидетельством TUV. Прежде, чем спортивные комплекты пружин попадают в серийное производство, они подвергаются самым жестким тестам и испытаниям во время движения. Все результаты испытаний соответствуют требованиям Международной Организация по Стандартизации DIN ISO EN 9001, а затем представляются в TUV для дальнейших испытаний. Только строгая проверка качества производства и качества документации позволяют гарантировать конечное качество изделия. Все комплекты поставляются с соответствующими инструкциями, карточкой сервисного обслуживания, свидетельством проверки качества и документом TUV. WEITEC предлагает почти 800 различных комплектов пружины, что является одной из самых богатых программ на рынке. Также компания предлагает до 6 различных понижающихся комплектов для всех изготовителей автомобилей. Благодаря обширности ассортимента

понижающих пружин вплоть до 40 мм, можно часто обойтись без специальных амортизаторов. Для полного комфорта от вождения, компания очень рекомендует использование специальных систем амортизаторов WEITEC. Комплекты пружин WEITEC абсолютно гармонируют с специально разработанными системами амортизаторов WEITEC. Каждый комплект спортивных пружин может использоваться как индивидуальный понижающийся комплект или как часть полной системы.

 *= ra shocks absorber has a slot adjustment for adjusting the height.

Повышающие проставки

Все повышающие проставки от Weitec поставляются со свидетельствами TUV и являются заключительным этапом по совершенствованию автомобильной подвески.

Комплекты проставок для пружин дают Вам возможность достичь экстремального вида вашего автомобиля (например: опущенный перед автомобиля), либо, чтобы дать компенсацию нарушенного равновесия при загрузке автомобиля (растяжение), не меняя амортизаторы, или только приподнять автомобиль, чтобы гарантировать свободное перемещение колеса в арке. Комплекты повышающих проставок для пружин от WEITEC - также решение для людей, которые часто двигаются с прицепом или

используют автомобиль на плохих дорогах и по этой причине хотят приподнять их автомобиль над дорогой.

Более подробную информацию уточняйте у вашего диллера или на сайтах нашей компании.

Специальное предложение для автомобилей ВАЗ

В начале 2005 года по заказу нашей компании фирма WEITEC разработала специально для отечественных машин спортивную подвеску. Акцент сделан на марки ВАЗ 2108, 2109, 21099, 2114-15, а так же 2110-2112. Комплект включает в себя четыре пружины, четыре амортизатора (передние вставки стоек и задние амортизаторы). Вы можете приобрести как отдельно пружины, так и амортизаторы. Но при покупке целого комплекта пружин и амортизаторов Вы экономите 300 руб. Амортизаторы также снабжены специальными кольцами для регулировки высоты автомобиля с шагом 1 см.

- 4 пружины на ВАЗ 2108-09 **4 700p.**
- 4 пружины на ВАЗ 2110-12 **4 700p.**
- Комплект амортизаторов **8 900p.**
- Комплект на ВАЗ 2108-09 **13 300p.**
- Комплект на ВАЗ 2110-12* **13 300p.**

* установка амортизаторов подразумевает замену передних стаканов на аналогичные от модели 2108-09.
